

NovaMind Technologies — Company Profile 2025

Confidential Internal Document

1. Company Overview

NovaMind Technologies was founded in March 2019 by Dr. Aisha Patel and Marcus Reeves in Bangalore, India. The company specializes in enterprise-grade AI solutions, focusing on natural language processing, computer vision, and intelligent automation. NovaMind is headquartered at 14 Tech Park Road, Koramangala, Bangalore, Karnataka — 560034. As of 2025, the company employs 340 full-time staff across three offices: Bangalore (HQ), Mumbai, and Singapore.

NovaMind went public on the NSE (National Stock Exchange) in January 2024 under the ticker symbol NVMD. The IPO raised INR 1,200 crore at a valuation of INR 8,400 crore. The current CEO is Dr. Aisha Patel, who holds a PhD in Computer Science from IIT Bombay. Co-founder Marcus Reeves serves as Chief Technology Officer.

2. Products and Services

2.1 NovaMind Core Platform

The flagship product is the NovaMind Core Platform (NCP), an enterprise AI orchestration layer that allows companies to deploy, manage, and monitor AI agents at scale. NCP version 3.2 was released in August 2025, introducing multi-agent collaboration, real-time observability dashboards, and a built-in RAG (Retrieval-Augmented Generation) pipeline. Pricing starts at INR 4,50,000 per year for the Standard tier and INR 12,00,000 per year for the Enterprise tier.

2.2 VoicelQ

VoicelQ is NovaMind's conversational AI product designed for customer service automation. It supports 14 Indian languages including Hindi, Tamil, Telugu, Kannada, Bengali, and Marathi. VoicelQ processed over 200 million customer interactions in FY2024-25, achieving an average resolution rate of 78% without human escalation. Major clients include HDFC Bank, Flipkart, and MakeMyTrip.

2.3 DocuSense

DocuSense is an intelligent document processing solution that extracts, classifies, and summarizes unstructured documents such as contracts, invoices, and medical records. DocuSense uses a fine-tuned version of Gemini Pro and achieves 94.3% extraction accuracy on benchmark datasets. It integrates natively with SAP, Oracle, and Microsoft 365 ecosystems.

3. Financial Performance

NovaMind reported total revenue of INR 320 crore in FY2024-25, representing a 67% year-over-year growth compared to INR 192 crore in FY2023-24. EBITDA margins improved from 12% to 19% in the same period. The company's largest revenue segment is NCP (52%), followed by VoiceIQ (31%) and DocuSense (17%).

Metric	FY2023-24	FY2024-25	Growth
Total Revenue	INR 192 Cr	INR 320 Cr	+67%
EBITDA	INR 23 Cr	INR 60.8 Cr	+164%
Net Profit	INR 8.5 Cr	INR 28 Cr	+229%
Employees	210	340	+62%
Enterprise Clients	85	162	+91%

4. Research and Development

NovaMind invests 18% of its annual revenue in R&D.; The research team of 62 scientists and engineers is led by Dr. Rohan Mehta, VP of Research, who previously worked at DeepMind London for 5 years. In 2025, NovaMind filed 14 patents in areas including adaptive RAG pipelines, multilingual embeddings, and agent memory compression. The company collaborates with IIT Bangalore and IISc on foundational AI research.

Key R&D; focus areas for 2026 include: (1) Long-context agent memory beyond 10 million tokens, (2) On-device AI inference for mobile applications, (3) Federated learning for privacy-preserving AI, and (4) AI safety and alignment research in partnership with Anthropic.

5. Leadership Team

Dr. Aisha Patel — CEO & Co-Founder

PhD CS, IIT Bombay. Previously CTO at Infosys AI Labs (2014-2019).

Marcus Reeves — CTO & Co-Founder

MS from Stanford. Previously Senior Engineer at Google Brain (2012-2019).

Priya Sharma — CFO

CA and MBA Finance from IIM Ahmedabad. Joined NovaMind in 2021.

Dr. Rohan Mehta — VP Research

PhD from Oxford. Previously at DeepMind London for 5 years.

Kavita Nair — VP Sales & Partnerships

20 years in enterprise software. Joined from Salesforce India in 2023.

6. Future Outlook

NovaMind has set an ambitious revenue target of INR 600 crore for FY2025-26, driven by international expansion into Southeast Asia and the Middle East. The company plans to open offices in Dubai and Kuala Lumpur by Q2 2026. A Series D funding round of USD 50 million is planned for Q1 2026 to support this expansion. NovaMind was named one of the Top 10 AI Companies in India by Forbes Asia in September 2025.
